

# All-In-One Touch Kiosk

The brand new 4K2K touch kiosk, available in 55" and 65", is a great choice for advertising. It includes 12 built-in templates, automatic layout arrangement, and one-click playback. Simply add your photos and videos to the designated folder, and the content will play automatically in a continuous loop. With a built-in Android system, it supports app installation and screen mirroring, making it a complete solution for interactive displays.

## 4K2K LG A-Grade Panel

Built-in IR Touch with Anti-Glare Tempered Glass | Supports USB Input Terminal | Stylish Design with SPCC Galvanized Steel

Combine with Wayfinding and CSKIOSK software to make your advertisement more eye-catching

Cloud-Based Guiding System

Provides multiple templates for creating videos, advertisements, and guides

Cloud-Based Advertising System

A user-friendly kiosk software that supports remote control from both smartphones and desktop computers

Cloud-Based Interactive Photo Booth System

Capture, store, and share photos instantly with an interactive photo booth system

Interactive Guidance and Customer Service

Customize Your Projects
