

Ultra-wide angle/AI Human Tracking/USB 3.0

4K UHD AI-Powered Webcam

Product Specification

4K UHD AI-Powered Webcam-KTACAM - 914

Dimension	118mm x37.2mm x 30.8mm	USB	USB3.0*1 Type C
Lens	UHD 3840*2160 110° Wide-angle	IR Remote Controller	Support
Minimum Illumination	0.5 Lux @ (F1.8, AGC ON)	Compatible OS	Win 7 (Only support 1080P resolution or below) Win 8.1, Win 10 or higher Mac OS 10.10 or higher Linux (Should support UVC) Android
Electric Shutter	1/30s ~ 1/10000s	Hardware	2.4GHz Intel Core 2 Duo Processor 2GB RAM or higher
White Balance	Auto, Indoor, Outdoor, Manual	Color Gamut/Compression	H.264 / MJPEG /YUY2 /NV12
Digital Signal Processing	2D&3D Digital Signal Processing	Multiple Resolutions	4k/30/25; 1080p@30fps/25fps; 720p@30fps/25fps; 960x540p@30fps/25fps; 640x360p@30fps/25fps
Back-light Compensation	Support	UVC PTZ控制	Support
Power Consumption	3.0W(MAX)		
Input Voltage	5V (USB Power Delivery)		
Input Current	600mA		
Operating Temperature	0 ~ 40°C		
Storage Temperature	-40 ~ 60°C		

*Design and specification are subjects to change without prior notice

4K UHD 110° Ultra-wide angle

4K UHD 3840*2160
110° Ultra-wide angle without distortion.
Combine with brand-new gen. UHD CMOS image sensor. Precise native resolution with abundant color gamut

AI Facial Recognition Technique

Adopting deep learning algorithms and auto adjust the angle of view based on the tracked coverage. With AI focus function, it can auto focus the target feature smoothly. Besides, it can optimize the image as per the intensity of ambient lighting.

High Quality Beamforming Microphone Array

Built-in beamforming microphone array, unique noise reduction & automatic gain, let the voice pick-up range up to 6m. Making your voice crystal clear

Support all kinds of common online meeting and chatting software

Multi-OS, online meeting and chatting software support. Suitable for live streaming, business meeting, online teaching and etc
